

Friday 21st September 2018

Dear Parents

Year 4 – Cooking in the Curriculum

Cooking sessions for Year 4 begin next week. This year’s focus is:

- To prepare ingredients hygienically using appropriate utensils
- To measure ingredients to the nearest gram accurately
- To follow a recipe
- To assemble or cook ingredients (controlling the temperature of the oven or hob, if cooking)

All cooking sessions are planned to ensure your child learns new skills, is able to discuss the nutritional aspects of the ingredients, is able to use their maths knowledge to calculate ingredients and to explore alternative ingredients when desired or when necessary.

Your child will be making Shortbread Biscuits on Monday 1st October 2018. The ingredients we will use are butter/margarine, caster sugar and plain flour. Time permitting, we will sample the shortbread biscuits, with any remainder being sent home.

We hope that you and your family will enjoy sampling the biscuits and that you complete the taste test on the back of the recipe sheet with your child.

We would be grateful if you could provide a voluntary contribution of **£1.00** to help to cover the cost of the ingredients. **Due to health and safety requirements, please ensure no nail varnish is worn.**

Yours sincerely

Miss S Carrington - Year 4 Teacher
