

KINVER HIGH SCHOOL

Hello, I am writing to both introduce myself and share with you the exciting news that the **Kinver High School coach service, will be picking up in your area from this September!**

I, Mrs Clifton, am the recently appointed (December 2019) new, permanent and proud headteacher of Kinver High School, part of the Invictus Education Trust.

Located in the beautiful, rural village setting of Kinver we serve a wide catchment area and currently have students who travel to us from: Stourton; Swindon; Wombourne; Bobbington; Trysull; Norton; Wollaston; Wordsley; Cookley; Kidderminster; Bridgnorth and Wolverhampton. Whilst we are a non-selective school, students and their parents choose us, because of our discerning traditional values.

When I joined Kinver, having spent seven successful years on the Senior Team at Highfields School, as the Head of Upper School, I was pleased to find a team and a community that had ambitions equal to mine, to create a world class environment for students to learn.

As an Invictus School, we believe and uphold the values of the Trust. Value one: 'that every day in every way our students come first' is embodied by all who work at Kinver and ensures that all of our students are recognised and successful. This coupled with Kinver's friendly atmosphere, unique 'family feel' ethos and elite experiences and unique opportunities, make me confident that you'll want to get to know us better!

Reassuringly, our priorities are clear as to what we feel makes us, a successful school. We believe that:

- Pupils need to feel safe and happy
- Pupils should be fully engaged and immersed into a wide range of learning activities
- Opportunities should be provided both in and out of the classroom
- All pupils, regardless of ability, should be given every opportunity to achieve their full potential

Engage | Succeed | Aspire to Lead Our dictum guides all that we do and by choosing Kinver High, you can be assured that your child will be challenged to achieve their very best academically, as well as being supported and encouraged to develop the moral, social and emotional intelligence to succeed outside of the classroom in a wide variety of ways

Kinver High is a school that uses its relatively small size to great effect. **Our students are not lost in the crowd.** We recognise the need to personalise our teaching to get the very best out of each individual. Our classrooms provide engaging opportunities to work and learn in groups and we believe that effective and regular feedback helps our **students to improve and make good progress.** Our ambitious curriculum and wider opportunities for enrichment, leadership and personal development ensures that all of our students are equipped with the **skills and acumen to become tomorrows leaders** and to continue to always aim, to be the best that they can be.

I hope that you will want to discover more of what Kinver High can offer you or your child and would encourage you to further explore our website, admissions page or Facebook account to get to know us better.

Our new virtual tour and staff welcome can also be viewed on our website www.kinverhigh.co.uk/induction
